CO-EDUCATIONAL DAY SCHOOL

Teacher of Mathematics  
Information for Candidates

## About Ibstock Place School

Ibstock Place School is an independent co-educational day school for pupils aged 4 to 18. The school occupies a ten-acre site on the edge of Richmond Park in South-West London.

An urban location with a beautiful botanical feel, Ibstock is the perfect home for scholarly exploration and adventure. Championing co-education since our founding in 1894, we have created a diverse environment that reflects real-world communities and workplaces.

Our school is oversubscribed, with assessed entry at the age of four for Kindergarten (Reception). There is a competitive entry examination at the age of eleven and most pupils in the Prep School proceed on into the Senior School.

## Head's welcome

This is an opportunity to play an integral part in a school with a rich history, at the vanguard of educational change.

Ibstock is both forward looking and rooted, dynamic and yet caring. Through our rigorous and imaginative curriculum, we engender in our pupils the courage and ambition which they will need to succeed.

At the same time, our fierce commitment to outstanding pastoral care means that our pupils are generous and self-aware, ready to make a positive contribution to the societies of tomorrow. We hope that you will be inspired by all that you read, and we thank you for your interest in Ibstock.

# About the role

## Teacher of Maths

We are seeking to appoint a full time Teacher of Mathematics who is able to teach across the Senior School age range (11-18 years), and who can prepare pupils for GCSE and A Level examinations in the subject.

The position is suitable for either a teacher who is in the early stages of their career (including recent graduates), or one with more experience who is seeking to develop in a new and stimulating environment.

Mathematics is a very popular subject at this school. More pupils choose it for study at A-Level than any other subject. A-Level Further Mathematics is also very popular. Almost half of the Year 11 cohort is entered for Further Mathematics GCSE which is an extension to the IGCSE and serves as good preparation for A-Level Mathematics.

Many pupils who progress into higher education read degrees in Mathematics and subjects that require Mathematics such as Engineering or Science.

We have a wide-ranging extension programme which includes entering most pupils into the UKMT competition and entering teams into the Hans Woyda Competition.

Our best Further Mathematics A-Level pupils are also entered into the Advanced Extension Award (AEA). Past pupils have gone on to read Mathematics at both Oxford and Cambridge.

There is a 13 strong Mathematics teaching team; some are full-time, and some are part time. Most of these are based in a Faculty Office which helps to promote the sharing of ideas in a supportive environment.

This post will commence 31 August 2024.

This is a term time only role, Monday to Friday, 8am to 4:00pm, with a six-month probationary period.

Further information on the role is set out in the Job Description.
